INFRASTRUCTURE EXHIBITION

AGENDA

Infra Exhibit will be working closely with Florence Arts Centre, located at a Grade II listed Iron Ore Mine in Egremont (Cumbria), to hold an exhibition. Showcasing the work created by students in the Infrastructure Space Atelier. Students who join us in this project will work alongside MArch1 Students in the design and construction of the exhibition. We will run workshops intended to create primary interventions, promoting local involvement with the Arts Centre. We also intend on helping the local community recognize and celebrate the historic significance of mining in the area, whilst helping better connect the Arts centre to the local town of Egremont. We hope this collaborative experience will be valuable for all involved, especially our collaborators at Florence Arts Centre.
