

MANCHESTER SCHOOL OF ARCHITECTURE

The Youth Centre 422 is a collaboration between the MSA and the Manchester Vineyard charity. The original building was constructed in the Victorian era and has fallen into disrepair since the youth centre's closure. Our ambition is to create a series of re-use proposals to renovate and re-open the centre. These include start up spaces, a café and the refurbishment of the existing hall.

This project will bring new life to the surrounding area of Longsight, Ardwick, and Rusholme and give it's residents a much needed community hub.

SKILLS

An understanding of architect/client relation

A formal survey of an existing building

The limitations and opportunities surrounding re-use architecture

Architectural illustration and curation

Real life experience of presenting to clients

TEAM

Alex Hughes
Ajay Mahay
Daniel Warren
Heston Harris
Ifan Jones
Jack Carter
