

MANCHESTER SCHOOL OF ARCHITECTURE

AGENDA

The 'Revitalising of Town Hall' is about the creation of a conceptual artistic installation that allows people to learn about the Town Hall while it is being renovated. The installation will be designed to interact with the public and convert the energy of the human body into electricity which will contribute to powering up the Town Hall. A chance to collaborate with Purcell Architects who have a vast experience in historical buildings, sustainability and community interaction is provided.

SKILLS

Through designing a fun and engaging installation students will develop various different skills including :

- Model making - physical/digital
- Research/ Analysis
- Communication Skills
- Collaboration Skills
- Photoshop + Illustrator + InDesign

REVITALISING THE TOWN HALL
