AGENDA

Founded 18 years ago, The Architecture School for Children (TASC) is committed to creating healthy and happy communities and promoting social inclusion. The following event will involve the design for the renovation of an existing studio at TASC in order to provide a multi-functional space with a high degree of flexibility. Additionally, the event will also involve the design of bespoke flexible furniture concepts with the premise of encouraging interaction and creativity within the space.

SKILLS

You will learn how to produce a high quality publication, including physical models and visuals that you will make in workshops. Learn new skills and get a chance to present your ideas to the client!
