

MANCHESTER SCHOOL OF ARCHITECTURE

AGENDA

The aim of this event is to **design a new digital and creative space** for **vulnerable young people** in Greater Manchester. The ambition of this project is to create an **inclusive environment** that will facilitate the **learning of digital skills** by **rehabilitating an unused space** and **designing a digital inclusion room** and **1-1 therapy room**. In this day and age, literacy skills are vital and the creation of an accessible space that encourages vulnerable people to come in and learn relevant digital capabilities will improve their confidence and increase their prospects of getting employed.

SKILLS

Over the course of this project you will have the opportunity to learn about: **design process, spatial arrangements as well as graphic design**. You will be able to develop **technical skills** such as **3D modelling, image editing and content production**.

DIGITAL DEN

LIFESHARE

TEAM

LAURA LAPADAT
IULIA LUP
MICHAEL WILLIAMS
CRISTIAN DUBINA
ANDREAS MARAGAKIS

Lifeshare's "DIGITAL DEN" project is to design a new digital and creative space for vulnerable young people in Greater Manchester.
