

MANCHESTER SCHOOL OF ARCHITECTURE

Agenda:

We are collaborating with Ecospheric and Rural Solutions to contribute towards a live architectural project, an original Arts & Crafts property in the Cotswolds, aiming for Passivhaus Premium certification.

We will be researching and using graphical methods to communicate innovative environmental technologies

Skills:

We are looking for students that have an interest in innovative environmental technologies. Over the duration of the project students will have the opportunity to use:

- Illustration Techniques
- Adobe Creative Suite
- 3D Modelling

Partners:

Ecospheric
Rural Solutions

Team:

Arundika Weerasekera
George Williams
Holly Millburn
Kathleen Karveli
Michael Walsh
Sam Sayle
