

MANCHESTER SCHOOL OF ARCHITECTURE

NUKE-FREE

MANCHESTER

AGENDA

What happened to Nuclear Free Manchester?

Once upon a time, Manchester saw itself as a leading light in the fight against nuclear annihilation. Now not only do we have several companies here who manufacture nuclear missiles and submarines, we put 'em in the regional marketing brochure. How did this happen? When did Manchester City Council go from a peace-loving city with doves on the road signs to actively encouraging some of the worst companies in the world to set up shop here?

TEAM

Aisha Zulfiqar
Haoyu Zheng
