

# MANCHESTER SCHOOL OF ARCHITECTURE

## AGENDA

Our team is made up of individuals with a keen interest in biodiversity and aim to explore it further through the creation of positive spaces for all - both human and non-human.

The project is located in Debdale Outdoor Centre, Gorton Manchester. We are constructing a **low maintenance, accessible and environmentally-friendly pollinator garden** to be used by the Paddlers for Life Manchester Dragoneers to facilitate conversation, and have coffee and cakes. We will be designing a **habitat for pollinators** and a **well-being enriched space** for the local community in hopes of enhancing the surrounding green space and promoting sustainability throughout the wider area.

## SKILLS

Teamwork  
Proactive in hands-on  
Gardening  
Construction  
Hand drawing  
Model making  
Photoshop  
InDesign

## COLLABORATORS

Paddlers for Life Manchester Dragoneers  
Debdale Outdoor Centre

## TEAM

Abbigayle York  
Anna Gleis  
Jonathan Quail  
Megan Dinsley  
Amanda Lim
