

MANCHESTER SCHOOL OF ARCHITECTURE

AGENDA

Our agenda is to safeguard and transform a music venue into a vibrant community resource. With a vision that will take place over the next decade, it will become a space for local people to gather. An institution dedicated to promoting local culture, arts, heritage, inclusion, community resilience, well being and citizen participation. We will bring our building into full and productive use and be able to expand the potential of the club for the next ten years.
