CHERISH THE TERRACE

Designing and developing **construction hoardings**
for Homebaked Community Land Trust

Agenda

The agenda for Cherish the Terrace is to develop proposals for engaging construction hoardings for Homebaked Community Land Trust in Anfield, Liverpool (right near the football stadium!). We will do this by illustrating the inspiring story of Homebaked so far through the curation of exhibition content, in order to attract further investment and expand their approach of community led regeneration to other areas of the city.

Skills

Within this project you will be guided through a range of activities including; designing and running a community engagement workshop, producing technical drawings, storytelling / narrative development, graphic design and illustration. We will be helping you to build on these skills through active participation in the project.
