

MANCHESTER SCHOOL OF ARCHITECTURE

NEW SPACE, NEW SONG

GROUP 19

This project is an investigation into the possibilities for the expansion and renovation of facilities for Kingdom Life, a church and youth club, a diverse and thriving community in Old Trafford, Manchester. This community is looking for a multi-use facility to include; a fit-for-purpose music studio, gym and wellbeing facilities, spaces for learning, offices, eating space, student housing, communal gardens and a space for congregation.

During week 1 we will design a site strategy, focusing on Kingdom Life's core values of user wellbeing, through spatial experience and a functional/ sociable layout. Then, in week 2, we will be developing key moments throughout the site, exploring and presenting through both traditional and physical methods, and digital methods.
