

MANCHESTER SCHOOL OF ARCHITECTURE

Havenscape Castle

Agenda

We are Havenscape Castle - a student-led team working in collaboration with The Castle Community Centre. The Castle offers a safe place for people of all ages and backgrounds to come together as a community to play, learn, and work. The refurbishment of this community building seeks to improve the existing facilities in order to offer greater quality, flexibility and healthier spaces for different interest community groups to meet.

Skills

Our role is to assist the Community Centre with their planning application through the production of 3D visualisation drawings of the refurbished spaces, and sustainability strategy diagrams in order to promote the project further and secure funding!

Team

Alessandro Porcietto
Katerina Loukaidou
Jiandong Yu
Ningmei Jiang
Zeyneb Caglar
