CREATING SAFE SPACES
@ GORSE HILL STUDIOS

Gorse Hill Studios is a local arts-based charity who believe all young people have the right to social, emotional and cultural investment in their future.

COVID-19 saw the potential for the building's external space to be utilised. As such, we're working in collaboration with them to propose temporary and permanent fixtures for their outdoor space.

We will be engaging with the young people of Gorse Hill Studios to create the most ideal design for their outdoor space.

The outputs for both temporary and permanent options will be physical, small scale prototypes.

TEMPORAL / PERMANENCE
