

MANCHESTER SCHOOL OF ARCHITECTURE

AGENDA

The project's set within the town of Nelson and embeds itself around the theme of re-imagining Nelson's lost Viaduct. The space is currently an open and under-used space that has the potential to act as a "Celebrational Gateway", stitching the town centre and the residential area together. In Collaboration with In-Situ, we will be working through a variety of design proposals, taking inspiration from Nelson's previously thriving cotton industry, and celebrating its diverse multi-cultural community. Through small-scale, low-tech interventions, we will be investigating how architecture can provide a platform for people to come together, meet, use, and have fun.

TEAM

Oliver Toussaint
Chloe Cassidy
Shalom Aureole Britto
Wei Jie Ooi
Sherifa Mohammed D Khawaji

SKILLS

Sketch-Up
AutoCAD
Adobe Illustrator
Adobe Photoshop
Adobe InDesign
