Photoshop  
Illustrator  
InDesign

## AGENDA

Growing Togetherness CIC in Buile Hill Park, Salford, welcomes everyone of all ages and backgrounds into their community. Our involvement is to design a structure within the community garden which provides shelter for the processing and working of the willow that they grow. This structure should be resourceful in its constitution and in keeping with the natural surroundings. We hope we can help them with this new intervention, which is just one part of their greater scheme of garden improvements.
