

MANCHESTER SCHOOL OF ARCHITECTURE

@TheGrange is a large community hub in Blackpool dedicated in enhancing the wellbeing of local residents through group social activities, as well as mental, physical and educational support.

Join us and the community in the exciting redesign of the café and library spaces into a seamless, flowing and comfortable environment, integrated with the vibrant outdoor community.

The **main goal** will be the development of a high-quality low-cost space accessible to everyone, regardless of age or background. We will produce visual outputs such as conceptual diagrams, technical drawings and renderings in order to give the community a full picture of the space's potential.

Tea and TALES.

@THEGRANGE
