

MANCHESTER SCHOOL OF ARCHITECTURE

ECHOES OF INCLUSION

A PAVILION OF MUSIC ENGAGEMENT FOR ALL

We're creating an amazing, purpose-built music space where our incredible SEN kids can explore, play, and shine! Our project will transform a cluttered, multi-use room into a fully equipped, accessible music haven designed for both students and teachers. This isn't just about sound—it's about self-expression, confidence, and joy! Join us in championing inclusive design and celebrating the unique ways SEN children experience music!
