

MANCHESTER SCHOOL OF ARCHITECTURE

AGENDA

Join us in creating a greener future! United Didsbury Methodist Church is on a mission to become a more eco-friendly space by 2030! We're working to improve community facilities, boost energy efficiency, and meet Passivhaus standards. Our focus includes exploring different ways of reducing energy use by optimising space, potentially installing solar panels, and upgrading windows for improved insulation.

SKILLS

Creative Problem Solving
Design
Teamwork
Communication
Digital Modelling
Visual Rendering
Passivhaus

ECO CHURCH

TEAM

Phoenix Beardall-Tang
Jingkun Cao
Adam Savage
Xintong Sun
