

# MANCHESTER SCHOOL OF ARCHITECTURE

## WITHINGTON COMMON WATERS.

Opened in 1913, Withington Baths is Manchester's last working Edwardian pool and a vital community asset. After years of decline and a near-closure, local activism saved it, leading to the creation of 'Withington Baths & Leisure Centre'. Working with the community in Manchester, our project proposes renovations, a new gym, and social housing to strengthen its role as a local anchor.
