DENS OF DISCOVERY

In collaboration with the Common Land Collective, the proposed scheme introduces a series of 'Dens' set within the lush countryside plot on Carter Lane in Chelford, Macclesfield.

Designed as welcoming spaces for land-based learning and preservation, the dens act as collaborative sanctuaries for expression, teaching, and making. Rooted in recycling, carbon education, and the active preservation of biodiversity, wildlife, and water, the project aims to nurture a stronger connection between the local community and the surrounding landscape.

Carter Jones, Emer McJinnity, Hana Naved, Katherine Tobin, Mase Al-Mashta, Olivia Thompson, Charles Smith, Dai Pengjia, Han Delling, Umar Mahmood, Viding Hie.
