This Holt Town Hive looks at how a bus stop can be more than just a bus stop. The idea is to design a flexible Travel Hub for Greater Manchester that can handle frequent bus services while still feeling safe and comfortable to use, combining buses with cycle docks, e-scooters, proper shelter, and small additions like kiosks and parcel lockers. Shaped around Holt Town's current conditions and future developments, our aim is to turn everyday travel into something more considered - a place where people feel connected and can look forward to spending time.
